| 4. Chronic Leukemia              | 8. Stem Cell Transplantation      |                          |

## REGISTRATION

All participants are required to register through the ICKSH 2018 online registration system and advised to register in advance (by February 28, 2018) to receive the Pre-registration discount. Related information will be posted soon on the ICKSH 2018 website <http://www.icksh.org>.

## BRIDGING THE GAP (BTG) 2018 CONFERENCE

ICKSH2018 will run concurrently with BTG 2018. The BTG series has been held in South East Asia since 2010. This congress will be a productive, interactive and educational experience for attendees. The event promises to be a unique medical education forum for the exchange of critical information as well as analyze the challenges faced by practicing clinicians.

## VENUE: Grand Walkerhill Seoul

It is located in northeastern Seoul, allowing you to enjoy clear views of the Han River and refreshing walks around Acha Mountain. In addition to tranquil moments surrounded by nature, the hotel's location also provides easy access to downtown and other attractions in less than 30 minutes by taxi or subway. The hotel's complimentary shuttle service runs every 10 minutes to nearby subway stations.

The Korean Society of Hematology

*Hyeoung-Joon Kim*

Hyeoung-Joon Kim, M.D., Ph.D.  
President  
The Korean Society of Hematology

Dear Colleagues,

It is a great honor and privilege to invite you to attend the 2018 KSH International Conference & 59<sup>th</sup> Annual Meeting, hosted by the Korean Society of Hematology (KSH), to be held March 29-31, 2018, at the Grand Walkerhill Seoul, Korea.

Founded in 1958, the Korean Society of Hematology has steadily grown over the years and will soon celebrate its 60<sup>th</sup> anniversary. As the explosion in the 21<sup>st</sup> century of science and industry has brought revolutionary advancement, the expansion of knowledge and development of new technologies goes beyond imagination. The ICKSH 2018 will provide a unique opportunity to learn about the most recent findings and research from renowned experts and offer an occasion to exchange experiences and information with colleagues for the continued success and progress of our field.

Our programs will include benign hematologic diseases, various types of hematologic malignancies, coagulation/thrombosis related disorders and transfusion medicine through plenary lectures, as well as scientific and education sessions. We are also planning to open several satellite symposiums with specialists on numerous hematology-related topics.

We very much look forward to sharing this memorable and fantastic meeting together.

# PROGRAM AT A GLANCE

DATE	THURSDAY, MARCH 29			FRIDAY, MARCH 30			SATURDAY, MARCH 31
