

# The 21<sup>st</sup> Korean Society of Hematology AML/MDS Working Party Symposium

**May 26(Sat), 2018**

**Seo Seung Hwan Hall, Center for Medical Innovation,  
Seoul National University Hospital**

09:20 ~ 09:40 Registration

09:40 ~ 09:50 Opening Remark

---

**Hee-Je Kim** (The Catholic University of Korea)  
**Inho Kim** (Seoul National University)

---

09:50 ~ 10:20 Molecular targeted therapies for acute myeloid leukemia  
Dong-Yeop Shin (Seoul National University)

10:20 ~ 10:50 NGS-based mutation analysis of hematologic neoplasms:  
Clinical interpretation and case review  
Young-Uk Cho (University of Ulsan)

10:50 ~ 11:20 Induction therapy for elderly AML and relapsed/refractory AML  
Hawk Kim (Gachon University)

11:20 ~ 12:00 Hematopoietic stem cell transplantation outcomes for adult  
patients with acute myeloid leukemia or myelodysplastic  
syndromes  
Yoshiko Atsuta  
(Japanese Data Center for Hematopoietic Cell Transplantation)

12:00 ~ 13:00 Lunch Time

---

**Ho Joon Im** (University of Ulsan)  
**Jun Ho Jang** (Sungkyunkwan University)

---

13:00 ~ 13:50 Transplantation of TCR $\alpha/\beta$  and CD19 depleted stem cell  
grafts from mismatched family donors in adult patients:  
First experience from a prospective multicenter clinical trial  
Dietger W Niederwieser (University of Leipzig)

13:50 ~ 14:30 Depletion of CD45RA+ cells in allogeneic transplantation  
Wing Leung (Miltenyi Biotec Inc.)

14:30 ~ 15:00 총회

15:00 ~ Closing Remark
